

My family and I depend on K-Love to give us enjoyable & uplifting music. As a mother, I value that I won't have to worry about any obscene language in the programming. I look forward to listening to K-Love. I also appreciate that they are willing to promote any free activities at various churches. This service alone would cost quite a bit at a regular commercial channel. I am very concerned that the FTC is considering doing anything that would prevent me from listening to K-Love. I have a 40 minutes drive to work and I really look forward to the music as well as the newsbriefs. Please don't do anything that would affect K-Love!! Thank you for your time!
